## **INVITATION FOR EXPRESSION OF INTEREST FOR INSTALLATION OF SMART POLES IN PUDUCHERRY SMART CITY.**

### **Introduction:**

1. Puducherry Smart City Development Limited (PSCDL), is a Special Purpose Vehicle (SPV) set up to implement Smart City projects under Smart City Mission (SCM), a flagship program of Ministry of Housing and Urban affairs. PSCDL proposes development of physical infrastructure for sectors such as education, health, and commercial, ICT etc., in the Area Based Development (ABD) area and across pan-city providing various smart features / infrastructure in line with the SCM guidelines. Installation of Smart poles in Smart city area is one of the important projects of Smart City scheme.
2. The Smart poles are one of the main sources of Data acquisition engine, which aggregates static and real-time data feeds from different sensors/ IoT devices like cameras, metering devices, telematics devices, etc. This includes, for example, data on air and water quality, ambient luminosity, disasters, traffic, solid waste, etc. This enables other functional layers of ICCC to aggregate, process and consume the data for deriving information.
3. PSCDL proposes to understand the technological/design options available in the open market with respect to Smart poles. PSCDL invites Expressions of Interest(“EOI”) from interested firms for the purpose of Installation of Smart Poles in Puducherry Smart City area.
4. Interested applicants are requested to submit their responses in the formats under ‘Forms’. **They may also provide documents in support of their approach, achievements / claims and compliance to eligibility criteria.**

**Key Events and Tentative Dates:**

Sl. No.	Stage	Date / Time
1	EOI Publication Date	08.08.2021
2	EOI Submission (online) Date	27.08.2021 till 3.00 pm
3	Date(s) for Presentation of design, Technology, Implementation, operation, maintenance and business model	After 03.09.2021
4	Date(s) for Technical Discussions (if required)	will be notified

## The Objective:

### 1. Objective of this EOI

- a) Smart Pole Concept: The Smart Pole aims to create a future ready (4G and above) Telecom infrastructure combining with other services proposed under the smart city mission in Puducherry. It allows city authorities to offer space for erecting Smart Poles to network service providers for telecom infrastructure.
- b) Mobile wireless 4G LTE infrastructure, Wi-Fi application, Advertisement, Bill-boards, Environmental Sensors etc. are some other features that may be attached to the smart poles. Further, upon establishing connectivity throughout city to Central Command & Control Centre through optical fibre cable networks, smart poles have a role to play in operation and maintenance of Smart urban infrastructure.
- c) All this functionalities / features / equipment creates a significant commercial potential for its implementer. Thus, this project can result in a “win-win” situation for the citizens, government and businesses.
- d) Consortium / Joint venture are not allowed.

## 2. The Process

- a) This EoI Document is an invitation to the prospective Applicants to submit their Applications and is not an offer and does not carry any commitment to engage with such Applicants who submit the same. Moreover, this EoI Document is for gauging and analyzing the market conditions and Project requirements, which would help PSCDL in formulating detailed technical specification, design aspects, commercial specifications for preparation of the RFP. Moreover, the EoI Document will facilitate to understand the modalities and challenges related to the Project implementation.
- b) For evolving the best techno-economically feasible solution allowing non-proprietary functionalities / features / equipment / technology, it is essential to identify all system components, their operational requirements as well as capabilities, their mutual compatibility / interoperability, and formulating the minimum essential specifications, PSCDL has planned to invite an open and interactive participation of all solution providers.
- c) It is envisaged that firms operating in Telecom technology, Internet Service Provider (ISP), operation & maintenance service providers, advertisement & publicity houses, and others will emerge to meet the long-term objectives of this project.
- d) The Applicant need to give a detailed technical presentation to PSCDL covering the following
  - i. Details on technical solution envisaged in the project,
  - ii. Indicative approach to be adopted
  - iii. Suggest with proper justification, the various revenue models which can be part of the EOI
- e) PSCDL will receive EOIs from full / part solution providers (“applicant”) who will participate in technical discussions with PSCDL demonstrate their solutions / capabilities / functionalities / features through detailed presentations. This presentation should provide a representative solution to integrate various features / aspects / functionalities / applications of the project as per the objective(s) set above. It is pertinent to mention that the service provider should have experience in implementing Smart pole in India or abroad. PSCDL may visit these locations at its discretion of existing implementation by the service provider. The Service Provider should provide a comprehensive live dashboard of similar implementations.

- f) For Wi-Fi services to Citizens / Visitors, the applicants have to provide the statistics of the number of persons connected online on each hotspot, duration of the Wi-Fi usage, data downloaded, etc.
- g) Subsequent to this EOI and the finalization of the Project details, PSCDL proposes to issue a Request for Proposal (RFP) for selection of contractor for development of the Project. The applicants shall involve in formulation of technical specifications of various system components for long term sustainable implementation of the project, which shall be compiled in the RFP document.
- h) The applicants shall also provide their inputs for identification and quantification of revenue streams, making their own assessments of revenue potential. Details, as necessary, may be shared with PSCDL for suitable incorporation in the RFP document.
- i) During the presentation as per 'Key Events and Tentative Dates, each applicant shall discuss their recommendation of solution(s) for Smart City – Puducherry and also exhibit their technical approach, methodology and work plan for the implementation of:
  - i. Smart Pole with LED streetlight & traffic signal
  - ii. Wi-Fi Services
  - iii. Optical Fiber Cable network requirement (will be sourced from existing grid)
  - iv. Video Surveillance/ CCTV camera / Poles
  - v. Smart Bill Board
  - vi. Public Address System
  - vii. Environmental Sensors
  - viii. EV Charging Points
  - ix. Provision for Solar Panel
  - x. Connectivity to Central Command and Control Centre
  - xi. Plans for Managing the Complete Network
  - xii. Traffic cameras / signaling system
- j) Applicant shall also elaborate on (i) Efficiency, operability, maintainability of features involved, (ii) Collaboration model among all ecosystem of stakeholders, (iii) Procurement & Financing Models
- k) All the information provided by the applicants, like the names of the clients, contract values or any proprietary information etc. will be treated as confidential information.

### 3. Design Parameters

Desired design parameters of the complete system are as below. The applicant should strive to exhibit most of these to confirm suitability of their products / services for the project. The design of the smart pole should be sleek and aesthetic. The frame should hide remote radio units and antennas inside the pole and macro radios, baseband units, transmission equipment, extra capacity, power, batteries and additional equipment underneath. All equipment being used should comply with relevant ISO standards.

- a) **Smart LED Lighting:** The smart LED lighting should be energy efficient. The lighting should be anti-glare. The installation should comply with IP 66. The Lighting Management System (LMS) should be able to send commands to the smart street lighting system based on the data analytics to increase / decrease the luminosity as per the daylight and weather conditions, volume of population, traffic etc.
- b) **Mobile / broadband Infrastructure:** Mobile / broadband infrastructure should be at least 4G LTE compliant and should be platform independent so that any mobile operator is able to rent space on the poles on non-discriminatory basis. The applicant is expected to give a detailed design based on their technology with explanation.
- c) **Power Back-up:** There should be power back-up to ensure round-the-clock functioning. The service provider should give a detailed breakdown of the power consumption of the equipment being used and accordingly work out back-up.
- d) **City Surveillance System:** This shall include observation by means of electronic equipment, namely, CCTV cameras and assist in decision-making.
- e) **Wi-Fi Hotspot services:** Applicant to provide modality on providing Wi-Fi hotspot service to citizens.
- f) **Environmental sensors:** Environmental sensors fitted on the smart pole will provide real time data for analysis and reporting.
- g) **Public Announce System:** Public Announce system on the smart pole will help the city authorities to convey important announcements from City operation center.
- h) **EV Charging Point:** Facility for installing EV Charging point on the smart pole will make the City future ready for EV Vehicles.

- i) **Security:** The physical and data security shall be the responsibility of the service provider. Cyber Security / ISO 27001 standards as applicable to Smart City project should be complied with.
- j) **Integrated Command and Control Centre (ICCC):** A ICCC facility will be set up centrally as part of the smart city project by PSCDL. Applicant needs to provide details about their approach for integration of the Smart Pole Software solution with ICCC and monitoring & managing the smart pole infrastructure. Applicant also needs to provide approach about managing the Smart Pole Solution till the time ICCC facility comes up.

#### 4. Instructions to Applicants
